# CONSULTATIONS

**All consultations are confidential and provided by Pamela J. Parsons, M.D., Risk Management Consultant**

## PHYSICIAN LITIGATION STRESS PEER CONSULTATION

Malpractice litigation can impact all aspects of a healthcare provider's life. LAMMICO offers insureds a unique opportunity to address the situation head-on, before the strain negatively influences other aspects of your profession.

LAMMICO is committed to providing a positive and proactive culture of support for our policyholders by offering realistic strategies to cope with the anger, fear and frustration of the litigation process. Together, we can help strengthen physician/healthcare provider wellness in the face of malpractice claims.

Through its subsidiary, Medical Interactive Community, LAMMICO provides videos, resources and tools to prepare healthcare providers to assist in their own defense, testify in depositions, and manage the personal and professional stress of litigation.

## PROVIDER WELL-BEING CONSULTATION

Stress in the healthcare setting is high. Studies across healthcare professionals show increasing stress levels, and as many as 30 to 60% of providers meet criteria for burnout. Burnout contributes to a poor quality of life for healthcare professionals who are experiencing it. In addition, stress and burnout can affect quality of care and safety of patients. This peer consultation offers strategies to reduce burnout and promote provider well-being.

## REQUEST CONSULTATION(S)

To request a Physician Litigation Stress Peer Consultation or Provider Well-being Consultation for an individual or a group, please call LAMMICO's Risk Management and Patient Safety Department during regular business hours at 504.841.5211 or 800.452.2120.
